(This review was written before DLC was free)

This game is three minutes long. Unless I'm missing something and cant figure out how to eat the cake at the end (OOPS! SPOILERS! I don't think it matters, though.) The game was fun while it lasted because the graphics were strange, but....no. Don't get it unless you're a millionaire with money to waste.. Got ripped off. Bought this when it cost money, then they made it free...
